A NEW ERA OF COLOR – THE CANON COLOR imageRUNNER C4580 SERIES

Unleash power, speed, flexibility, and connectivity in your office

With robust functionality, advanced print engine technology, superior paper-handling, and professional finishing options, the Color imageRUNNER C4580 Series models are the ideal multifunction devices for your office.

The Color imageRUNNER C4580 Series delivers output at speeds of up to 45 pages per minute (letter) in monochrome and up to 40 ppm (letter) in brilliant color. Fast print speeds and warm-up times are achieved through Canon's Twin-Belt Fusing Technology. And at true 1200 dpi, every word will appear with absolute clarity with the highly precise four-beam laser scanner.

A fast and reliable 100-sheet Duplexing Automatic Document Feeder (DADF) enables you to efficiently scan/copy high-volume documents at up to 70 impressions per minute (ipm) at 300 dpi in black and white and color.

Two versions of the Color imageRUNNER C4580 Series are available—an “i” model and a “Base” model. The “i” model, designed for general office environments, is bundled with features providing out-of-the-box business productivity. The “Base” model is highly customizable and offers a selection of options to best fit demanding color environments.

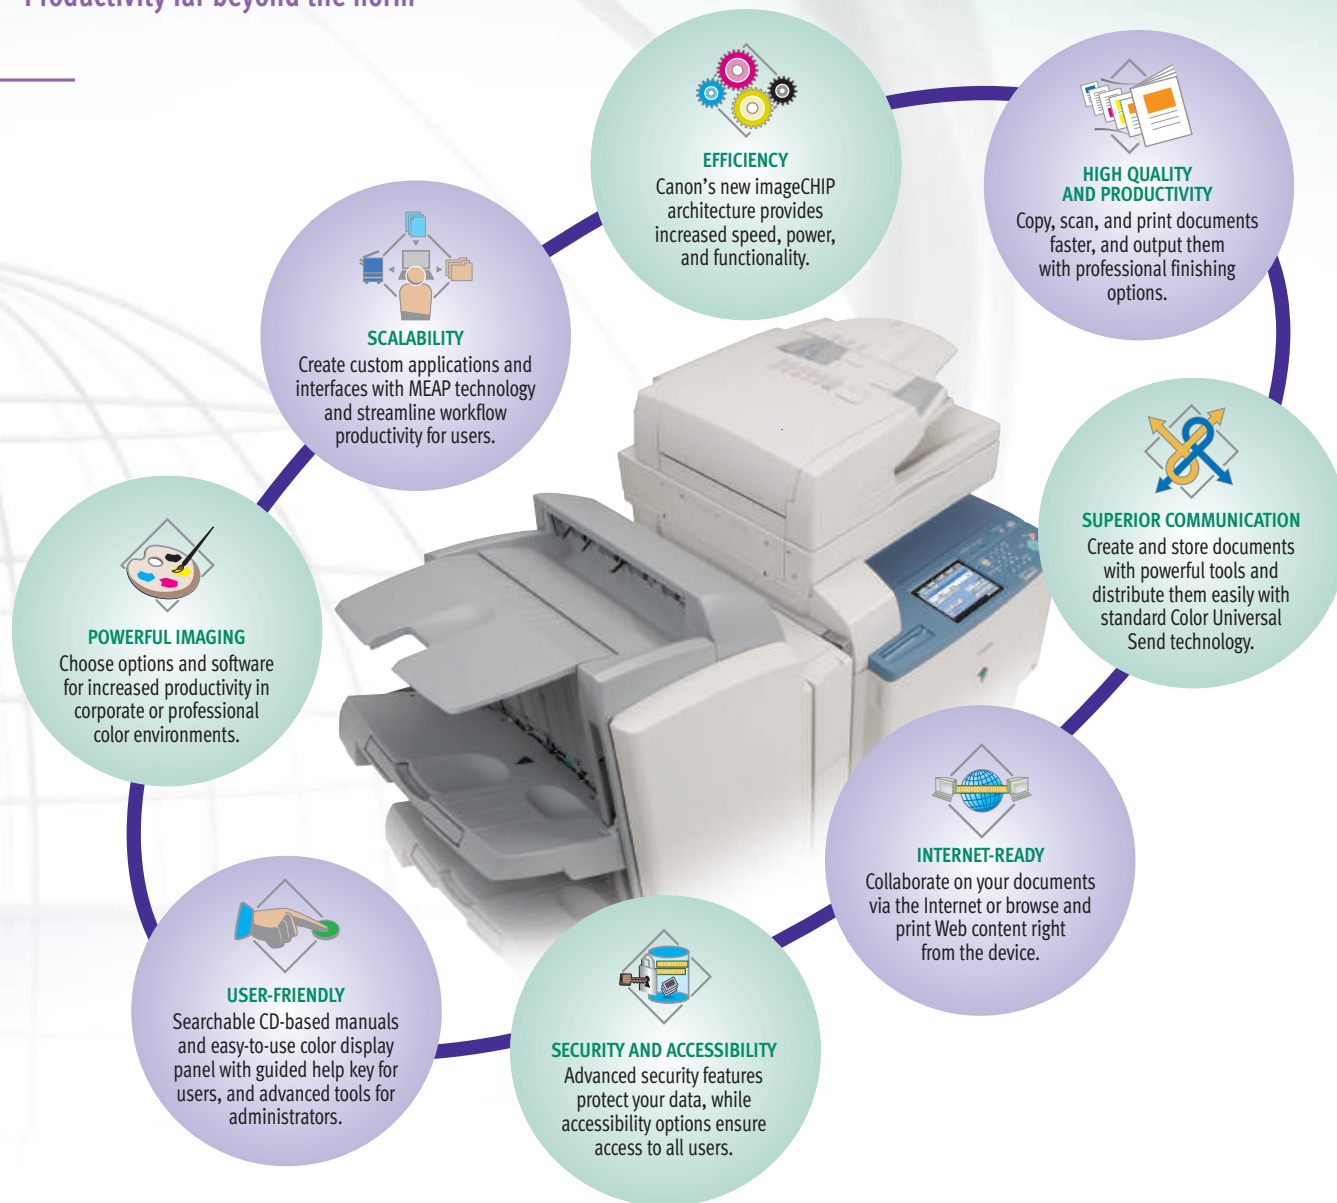

The Color imageRUNNER C4580 Series provides memory capacity of up to 1.5GB, an 80GB hard drive, and Canon's innovative MEAP® (Multifunctional Embedded Application Platform) technology for customized workflows. With high-capacity finishing options, professional output is available for any project.

When it comes to connectivity, the Color imageRUNNER C4580 Series enables efficient document distribution with Canon's Color Universal Send technology. Standard on all models, it provides comprehensive dissemination of information simultaneously to multiple locations across the hall or around the globe.

COLOR imageRUNNER C4580 SERIES OVERVIEW

Productivity far beyond the norm

| Function | Color imageRUNNER C4580 | Color imageRUNNER C4580i |
|----------------------|--|---|
| Copy | Standard | |
| Mail Box | Standard | |
| Print | Optional:* UFR II, PCL, PostScript Emulation,** Adobe® PostScript® 3™ | Standard: UFR II, PCL Optional: PostScript Emulation** |
| Scan | Standard: Color Network ScanGear | |
| Color Universal Send | Standard: Color Universal Send | |
| | Optional: Universal Send PDF Advanced Feature Set | Standard: Universal Send PDF Advanced Feature Set |
| | Optional: Universal Send PDF Security Feature Set | Standard: Universal Send PDF Security Feature Set |
| Super G3 Fax | Optional: Single-Line or Multi-Line | |
| Web Access | Optional | |
| MEAP | Standard | |

* Choose one of three print controller options: UFR II/PCL Printer Kit-N2, imagePASS-H1, or ColorPASS-GX100.

** PS Printer Kit-N2 option requires the UFR II/PCL Printer Kit-N2; also requires 512MB RAM.

THE ANATOMY OF AN EFFICIENT PERFORMER

Canon imageCHIP System Architecture

- imageCHIP architecture provides more speed and power for greater productivity
- Up to 1.5GB RAM and 80GB HDD
- Dedicated dual processor design
- Mail Box: local archival solution
- Remote UI device management

Robust Speed

- Up to 70-ipm high-speed color and black-and-white scanning
- Standard 100-sheet Duplexing Automatic Feeder
- 45 ppm (black and white); 40 ppm (color) printing

Reliable Consumables and Supplies

- Durable Canon OPC Drum
- Easy-to-replace toner cartridges
- Oil-free color S-toners

Accessibility Options

- Voice Operation Kit
- Remote Operator's Software Kit
- ADF Access Handle
- Braille Label Kit

Advanced Finishing Options

- Three types of finishers
- Corner, double, saddle-stitch
 - Extensive stacking capacity
- Hole-punching
- Two or three holes

Superior Paper-Handling

- Up to 5,000-sheet paper capacity
- 100-sheet Bypass Tray; Alignment Tray Option
- Up to 140 lb. Index media weights
- Up to 12" x 18" media sizes

HIGH QUALITY AND PRODUCTIVITY

Uncompromising business performance

NEW-GENERATION IMAGE PROCESSING

The Color imageRUNNER C4580 Series is powered by Canon's evolutionary imageCHIP system architecture. This not only enables simultaneous copying, printing, scanning, sending, and faxing, but it will change the way you think about using color in your office.

DIGITAL DYNAMICS

Adding digital data to copies and prints is easy and powerful. Create ad hoc watermarks, select preset stamps, add page and copy set numbering, and/or date stamping to any output with control over size, position, colors, and density. You can also embed secure watermarks that appear when copies are made to help prevent security leaks of confidential information.

Secure Watermark

Original document with hidden text and background color

Hidden text appears on copies that are made

THE PERFECT FINISHING TOUCHES

The Color imageRUNNER C4580 Series offers professional finishing options that collate, staple, hole-punch, or saddle-stitch to create impressive documents efficiently. And with Automatic Creep Correction, each page in your large booklets will be perfectly positioned.

Saddle Finisher-W2

imageCHIP System Architecture

COMPLEX JOBS MADE SIMPLE

The Color imageRUNNER C4580 Series makes the production of complicated documents manageable. Users can combine different sets of documents into one with Job Block Combination at the device. Each set can be configured to run with unique settings, such as paper type, finishing, color, and more, then reproduced or stored as a new document in a Mail Box. From the desktop, individual or groups of pages in documents can be configured with the new Exceptional Settings tab* in the print driver to control output settings, such as media type, paper size, input tray, and finishing options.

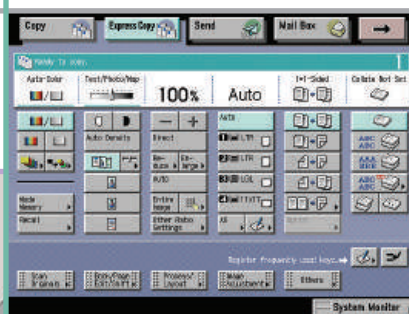

BRILLIANT BUSINESS COLOR

For general office environments, the Color imageRUNNER C4580 Series efficiently tackles print tasks for Microsoft® Office applications. It supports Canon's UFR II (Ultra Fast Rendering), PCL, and XPS,** as well as an option for PostScript 3 emulation.

FASTER COPYING

Copy operations are greatly simplified through the choice of two user interfaces. The standard copy display simplifies operations for novice users, while an Express Copy menu provides advanced users quick access to various copying modes on a single screen.

Express Copy Screen

* Requires PS Printer Kit-N2 option.

** Please check with your Authorized Canon Dealer for availability.

SUPERIOR COMMUNICATION

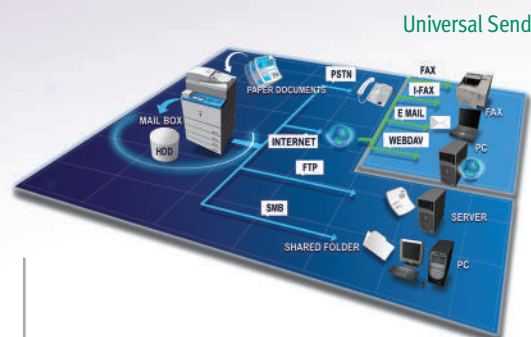

Enhance your digital world with Color Universal Send

With Canon's proprietary Universal Send technology, the Color imageRUNNER C4580 Series enables you to distribute scanned documents to multiple network destinations—such as e-mail and Internet fax addresses, local Mail Boxes, fax, network folders, and document management systems—in one simple operation. Quickly and easily send documents to user addresses in a local Address Book, look up users from multiple LDAP servers on your network, or manually enter a destination. When Single Sign-On (SSO) or Simple Device Log-in (SDL) authentication modes are used, a new time-saving feature enables you to send documents to yourself in a single click.

Color Universal Send offers powerful options to master creation, distribution, and archiving of your documents. Universal Send PDF Advanced Features (standard on the "i" model) provide additional functionality such as PDF High Compression, Trace & Smooth PDF, and Searchable PDF modes.

Send Main Screen

FILE SIZE COMPARISON

Original: Letter-Sized Hard Copy (Color Graphics with Text)

| Canon's PDF (Compact) | PDF File Format | PDF File Format |
|--------------------------|------------------------|--------------------------|
| 300-dpi Color Scan | 300-dpi Color Scan | 300-dpi B/W Scan |
| File Size: 150 KB | File Size: 2 MB | File Size: 390 KB |

PDF High Compression Mode

PDF HIGH COMPRESSION TECHNOLOGY

To reduce network bandwidth requirements when sending color documents, Canon's proprietary PDF High Compression Mode can significantly reduce the size of PDF files. And with Canon's exclusive Trace & Smooth PDF feature, text in PDF files can be converted to outlines for sharper edges and increased readability. The outline data can also be manipulated in Adobe Illustrator® to create elements for other documents.

Trace & Smooth PDF

CREATING SEARCHABLE PDF DOCUMENTS

After scanning for PDF creation, the text is then embedded within the file for extraction or keyword searches with the Searchable PDF feature. This allows you to easily scan and convert scanned documents into your electronic workflow.

HIGH-VOLUME FAX CAPABILITY

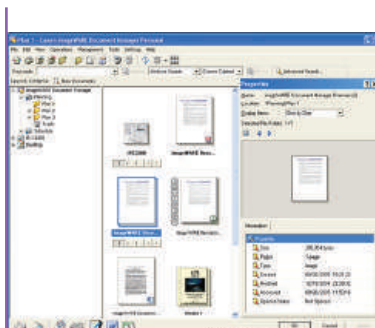

The Color imageRUNNER C4580 Series supports the option to add a single- or multi-line Super G3 fax module to further extend the capabilities of Color Universal Send. Incoming faxes can also be automatically routed to other devices, destinations, or users with the Job Forwarding feature for superior workflow management.

ADVANCED WORKGROUP COLLABORATION

The Color imageRUNNER C4580 Series includes internal Mail Boxes for document storage and print-on-demand applications. Documents can be combined and printed as a single job or sent to multiple destinations in a variety of formats. For files that are too large for e-mail or require a large distribution list, the URL Send feature can e-mail a link to notify recipients that they can remotely preview via PC and, if necessary, print from the device.

DESKTOP INTEGRATION

The Color imageRUNNER C4580 Series is designed to work seamlessly with Canon's imageWARE™ Document Manager Personal Version 4 as a total end-to-end document solution. You can capture, archive, retrieve, and manipulate documents within the imageRUNNER devices' Mail Boxes right from your desktop computer, seamlessly integrating your workspace with the device.

imageWARE Document Manager Personal Version 4

INTERNET-READY

Maximize the power of the Web

The Color imageRUNNER C4580 Series provides more ways to share information with the world beyond your office than ever before.

WEB BROWSING AND PRINTING

With the industry's first Web Access Software option, you can browse the Web or corporate intranets directly from the device's color touch-panel. The Web Access function enables you to print Web pages or PDF files from the Internet or your network, even when you don't have access to a computer.*

WEB-BASED DOCUMENT COLLABORATION

Color Universal Send supports the Web-based Distributed Authoring and Versioning (WebDAV) protocol, enabling you to securely send documents to a shared storage service over the Internet. Collaborate on documents with others, whether they're in the office, on the road, or at home—for increased productivity.

Web Access Software

* When configured on the "Base" model, requires UFR II/PCL Printer Kit-N2 if printing Web pages; requires PS Printer Kit-N2 on "Base" and "i" models if printing PDF files.

POWERFUL IMAGING

Flexible color productivity for your office

Canon offers flexible print controller options developed for the Color imageRUNNER C4580 “Base” model. The ColorPASS-GX100 and imagePASS-H1 controllers increase productivity and color quality for corporate and professional color environments.

imagePASS-H1 CONTROLLER

The imagePASS-H1 is a high-performance embedded controller designed to handle color-intensive multi-user environments. Featuring a dedicated Intel® Celeron® M 1.5GHz processor, the imagePASS-H1 provides improved color matching, genuine Adobe PostScript 3 support, and PCL.

imagePASS-H1

EFI Utility

ColorPASS-GX100 CONTROLLER

The ColorPASS-GX100 is a powerful external server which caters to graphic-intensive users and production environments. Driven by an Intel Pentium® 4 3.2GHz processor, the ColorPASS-GX100 controller supports demanding color image and high-volume processing.

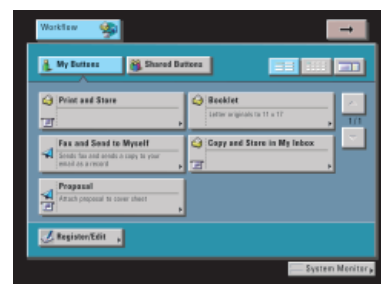

SCALABILITY

Solutions that evolve with your business

As your business grows, the Color imageRUNNER C4580 Series will continue to provide value with features and options designed to extend your capabilities.

OPERATIONAL EFFICIENCY

Breeze through complex tasks and help to reduce operator mistakes using the new Workflow Composer option. Workflow Composer enables users to configure one button to perform multiple actions, such as copying, sending, and storing at the device in a single step. For even greater convenience, workflow buttons can also be created and edited from the desktop.

Workflow Composer Screen

Access Management System Screen

USER-FRIENDLY

Simplicity for users

For users, the Color imageRUNNER C4580 Series facilitates operations with its easy-to-read full-color touch panel, interactive help menus, insightful documentation and tutorials, and remote operation capabilities. Streamlined administration is achieved through powerful features for user access and privileges, and device management.

SUPPORT TOOLS FOR OPERATORS

Whether you're a beginner or an advanced user, the Color imageRUNNER C4580 Series is easy to navigate. An easy operation guide provides step-by-step instructions on how to operate the device's main functions. And the [Help] hard key on the device provides instructions and explanations for operation. Instead of bulky manuals, device documentation is CD-based and features search tools to find answers quickly and easily. User tutorials in Macromedia® Flash® format are also available and can be distributed through your network or corporate intranet for smooth deployment.

REMOTE UI (USER INTERFACE)

The Color imageRUNNER C4580 Series can be accessed through a Web browser from any computer on the network. The Remote UI utility provides the ability to check the status of the device, track the progress of current jobs, monitor paper and toner levels, administer the Mail Box, and edit the Address Book.

Control Panel

...and for administrators

FLEXIBLE USER ADMINISTRATION

Administrators have a choice of methods to control access and privileges to the Color imageRUNNER C4580 Series devices. Authentication schemes include Single Sign-On (SSO) using network accounts, Simple Device Log-In (SDL), and Department ID Mode with optional Control Card/Card Reader system. Using the Access Management System, administrators have powerful control over access to the Color imageRUNNER C4580 Series and its functions for even greater security and cost control—at both the user and group levels.

COMPREHENSIVE DEVICE MANAGEMENT

Canon's imageWARE Enterprise Management Console (EMC) is a Web-based utility that facilitates centralized management of networked devices. Built upon an extensible framework, it enables remote management of device settings, discovery of new devices using automated tasks, and device error notifications via e-mail. Administrators can also easily replicate settings and Address Books across multiple devices through the Device Information Delivery Function (DIDF), as well as push-print drivers to PC-based desktop computers for rapid deployment.

Easy Operation Guide and Tutorial CD

SECURITY AND ACCESSIBILITY

DEVICE ACCESS AND DATA SECURITY

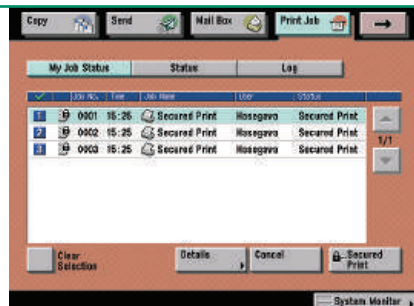

The Color imageRUNNER C4580 Series includes features to help guard against unauthorized access to the device and its data. In addition to user-level authentication, it can also restrict access from the network. The series also supports IPv6 for enhanced network infrastructure management. To protect your stored, scanned, and printed data, the HDD Data Erase option permanently removes deleted files by overwriting them up to three times. The HDD Data Encryption option provides additional security by encrypting data before it's written to the hard disk drive and has achieved Common Criteria (CC) certification.

Device Management and Security Overview

DOCUMENT SECURITY

The Universal Send PDF Security Feature Set option prevents impersonation or interception of your documents. Digital Device Signature Mode and the optional Digital User Signature Mode provide verification of a document's source. Additionally, you can password-protect your documents with the Encrypted PDF feature and securely print them over the network using the Encrypted Secured Print feature.

ACCESSIBILITY

Canon offers solutions that go even further to ensure access for every authorized user of the Color imageRUNNER C4580 Series devices. The device can be controlled with spoken commands using the Voice Operation Kit. The first Canon release of its kind for the U.S. market, the kit provides speech synthesis and voice recognition for individuals who are blind, or have poor vision or mobility/dexterity impairments.
