WG7200 Series Multifunction Printers

Inspired and informed by professionals like you, who are trying to fit 12 hours of productivity into an 8-hour work day, the Canon WG7200 Series is there day and night, by your side to cover your back. Businesses can count on the WG7200 Series for exceptional performance, every day, on every job.

Core Pillars of the WG7200 Series MFP

The WG7200 Series is the perfect solution for your business. These Color Multifunction Printers not only offer high productivity and first-class usability, but the newly developed printhead and pigment inks achieve outstanding print quality. Packed with technological prowess - Canon knows Multifunction Printers inside and out. Expand your business possibilities with the WG7200 Series Multifunction Printers and accelerate your business with Canon.

USABILITY

SUPERIOR USABILITY & EASY MAINTENANCE

EASY SETUP

The user-friendly, 5-inch color LCD touchscreen makes setting up the printer a breeze, even for first-timers, by displaying the instructions on-screen.

SIMPLE, INTUITIVE TOUCHSCREEN

Easily navigate through all printer operations within one simple, intuitive touchscreen.

WIDE RANGE OF MEDIA SUPPORT

The WG7200 Series supports a variety of media types such as envelopes, long paper, and even matte photo paper. The printer can support various paper weights and sizes up to 13" x 19".

PRINT & SCAN DIRECT WITH USB¹

Easily print and scan without a computer, by using a USB flash drive with the convenient USB 2.0 port next to the LCD touchscreen.

AUTOMATIC PAPER SIZE SENSOR

Built-in sensors detect the size of the paper you load into each cassette and adjusts the printers settings automatically.

SELF-SERVICEABLE DESIGN

The WG7200 Series has a self-serviceable design for simple maintenance and ease of use. The ink cartridges and maintenance cartridge are easy to access using the front panel.

PERFORMANCE

PERFORMANCE YOU CAN COUNT ON

JAM DEFYING DESIGN²

Designed specifically with a straight paper path to help reduce and prevent paper jams, the WG7200 Series can confidently handle large volumes worry free.

NEWLY DESIGNED PRINTHEAD FOR STABLE PRINTING

The newly developed printhead spans the full width of all supported paper sizes - meaning the printhead doesn't move across the page, achieving high-speed, accurate printing.

ANTI-CURL TECHNOLOGY

With new ink formulations, the amount of colorant in the ink is increased, with water content reduced and an anti-curling solvent added.

DUAL NOZZLE CHECK MECHANISM

Featuring optical and in-nozzle sensors, the WG7200 Series can monitor ink ejection in real time and make adjustments as necessary for the best results.

HIGH-DENSITY BLACK INK

Utilizing a high-density black ink to print vivid and sharp office documents, the text on reports, emails, spreadsheets, will always be crisp and easy to read.

NEWLY DESIGNED INK FORMULATION FOR BETTER PERFORMANCE

With a new formulation and low surface tension, the WG7200 Series inks are able to absorb into the paper more quickly than traditional ink methods.

HIGHLIGHTER RESISTANT INKS

The ink contains a water-soluble urethane resin that forms a strong and flexible film on the printed surface, which helps reduce smearing and bleeding.

PRODUCTIVITY

MAXIMIZE YOUR UPTIME

HIGH SPEED PRINTING³

With up to 80 pages per minute (PPM) in color or black-and-white printing, print large volume jobs quickly.

FAST FIRST PRINT OUT³

High-speed fast first print out time (FPOT) of 6.5 seconds from ready mode.

HIGH PAPER CAPACITY

Reduce the frequency and time required to replenish paper during large print jobs, due to a maximum paper capacity of up to 2,250 sheets.

SINGLE-PASS DUPLEXING⁴

Simultaneously scans both sides of 2-sided documents in a single pass at 65 ipm.

DIGITIZE DOCUMENTS FAST

Rapidly digitize large volumes of documents for efficient file retention and data storage.

DISCLAIMERS

SPECIFICATIONS ARE SUBJECT TO CHANGE WITHOUT NOTICE. ALL VIEWSCREEN AND OUTPUT IMAGES ARE SIMULATED.

- 1 Supported file formats include: JPEG, TIFF and PDF.
- 2 "Jam Defying Design" refers to the WG7200 Series straight paper path designed to help reduce and prevent paper jams.
- 3 Print Speed is based on ISO/IEC 24734 including Canon original method. Measured in default mode (General Office Mode: 600dpi) / fast mode (Office Document Mode: 300dpi) using paper cassette 1. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette, etc. Print Speed (FPOT) is based on ISO/IEC17629 using paper cassette 1. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette etc.
- 4 Average copy time from ADF. Set the original on ADF and measure time from pushing the scanning button to output the copied paper. Based on ISO/IEC 17991 scESAT30secA. Scanning Speed (SEND), measured in Canon original method is based on ISO/IEC 17911, scEFTP30secF. ADF scan speeds/Scanning speed (SEND) vary depending on system configuration, interface, software, etc.
- 5 Requires an Android mobile device with NFC hardware running Android 4.4 or later, and the Canon Print Business app, available for free at Google Play. Canon Print Business app must be open to use tap and print functionality. Certain exceptions and restrictions may apply.
- 6 Wireless printing and scanning requires a working network with wireless 802.11b/g/n capability, operating at 2.4GHz. Wireless performance may vary based on terrain and distance between the printer and wireless network clients.
- 7 Resolution may vary based on printer driver setting. Color ink droplets can be placed with a horizontal pitch of 1/1200 inch at minimum.
- 8 Copy Speed is based on Canon original Method. With Canon original chart, execute the continuous copy and calculate copy pages per minute. First-Copy-Out Time is based on ISO/IEC 29183.
- 9 Optical Resolution is based on ISO/IEC 14473. This is the maximum sampling rate when scanning the original. When scanning in high resolution, scanning area size may be limited.
- 10 Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Color document fax transmission speed is based on default setting using Canon Color Fax Test Sheet. Actual speed varies depending on document complexity, fax setting at receiving end, and line conditions etc.
- 11 Fax resolution measured as follows; Standard (8 dots/mm × 3.85 lines/mm), Fine (8 dots/mm × 7.7 lines/mm), Super Fine (8 dots/mm × 15.4 lines/mm), and Ultra Fine (16 dots/mm × 15.4lines/mm).
- 12 Fax memory is measured with Canon original FAX testing chart. This number varies depending on the available memory size, content of document and etc.
- 13 AirPrint functionality requires a compatible iPad, iPhone, or iPod Touch device running iOS 7.0 or later, and an AirPrint-enabled printer connected to the same network as your iOS device. A printer connected to Mac running MacOS X 10.9 or later supports AirPrint via USB connection.
- 14 Requires an Internet connection and Google account. Subject to Google Terms of Service. Certain exceptions may apply.
- 15 Requires Android mobile device with Android 4.4 operating system or later with the Mopria Print Service pre-loaded with that device and the compatible PIXMA printer on the same wireless network. The Mopria experience is also available on Android 4.4 mobile devices with a download of the Mopria Print Service from Google Play.
- 16 Requires an Internet connection and the Canon PRINT Business app, available for free on the App Store and at Google Play. Compatible with iPad and iPhone devices running iOS 10.0 or later, and Android mobile devices running Android 4.4 or later. For more information, including compatibility, please visit <https://www.usa.canon.com/mobile-app>. Certain exceptions and restrictions may apply.
- 17 Canon Print Service is a print plugin for Android 4.4 smart devices, which enables printing from Android 4.4 devices to many Canon printers via a Wi-Fi network. The plugin does not work as a standalone app, it is designed to work with specific Android print systems. Certain exceptions or restrictions may apply.
- 18 For full functionality of Windows Printer Driver (DSL/PCL/PS), Windows Fax Driver, Windows Scanner Driver/Scan Utility, Windows Printer Driver (v4), Master Installer, and Composite Installer Windows 10 or Windows 8.1 is recommended while utilizing a Windows operating system. Version 3.80 CUPS Driver is required while utilizing a Linux operating system.
- 19 Duty Cycle is defined as the maximum number of printed pages for a single peak month.
- 20 Typical Electricity Consumption (TEC) value: TEC value was calculated assuming the unit will be constantly switched among operational mode, sleep mode, and power-off mode for 5 days, and that it will be either in sleep or power-off mode for the remaining 2 days within the same week. The TEC value of this product is calculated by Canon on their own accord using TEC measurement procedure regulated in International ENERGY STAR Program.
- 21 Print quality might be lower depending on the operating environment.
- 22 Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24711 (test method) and ISO/IEC 24712 (chart). Depending on print mode, print original, environment, user maintenance mode and its frequency etc, this value varies. Page yield is based on the consumption data from the succeeding ink tank but not the first ink tank. Page yield of setup ink tank is based on remaining ink after consuming for initial printer setup.
- 23 Warranty programs are subject to certain conditions and restrictions. See www.usa.canon.com/support or [warranty card](#) for details.
