Compact creativity

The essentials of imaging

Creative answers to black-and-white requirements

➔ Resourcefulness for your office

A compact and robust device that answers all of your black-and-white imaging needs: Konica Minolta's experience and technical creativity is what makes up the new multifunctional bizhub 250.

With its speed of 25 images a minute, this versatile network device comprising a copier, a printer, and high-speed scanner with an optional fax function is designed to perfectly meet the network and office communications needs of workgroups as well as small offices and departments. The bizhub 250 is the ideal replacement for the various stand-alone copy, print and fax units still found in many of today's offices, because it does the work of them all.

Its communication and networking capabilities as well as its versatile finishing, IT, and security features are effective tools to improve your office workflow and enhance your effectiveness.

But most importantly, its proven state-of-the-art technology guarantees reliable, high-quality black-and-white results. And it's easy to operate too.

Let our creativity help yours!

bizhub 250

➔ Creative quality features

- Just take one look at the large integrated graphic user interface: Its cleverly designed touch-sensitive panel providing direct access to the individual functions, makes the bizhub 250 extremely easy to operate.
- The innovative Emperon™ print controller is at the heart of the many functions made available by the bizhub 250. PCL 5e/6 and PostScript 3 come standard and support all common operating systems.
- Simitri™ is Konica Minolta's groundbreaking extra fine polymerised toner that offers you the best black-and-white copies and prints in the business with superior halftone definition and solid fills.

Creative competence whenever you

➔ Fast scanning and faxing for improved communications

- High-speed scanning is one of the major advantages of the new bizhub 250. With the optional feeder, scanning complex documents is not a problem. It is capable of reading in up to 70 originals per minute, making central scanning in any network direction you need possible.
- Internal and external information and distribution sharing is easy and efficient thanks to the embedded network interface card: Scan-to-eMail, Scan-to-FTP, Scan-to-SMB are standard features of the bizhub 250.
- LDAP (Lightweight Directory Access Protocol) support provides you with direct access to your company's eMail database. Entering your required addresses manually is no longer necessary.
- Faxes still play an important role in many office environments. The optional Super G3 fax of the bizhub 250 features a wide variety of useful functions needed in today's business world: Up to 540 one touch keys can be programmed, and up to 300 broadcasting locations registered, quick memory and batch transmission, fax re-routing as well as memory reception are available. And with the optional multi-line fax kit, faxes can be sent and received simultaneously.

➔ More creative features

- The bizhub 250 comes equipped with a 192 MB memory that can be easily upgraded to 320 MB. And the optional 40 GB hard disk not only increases page storage capacity considerably, but it also makes additional features like watermarks, stamps, and overlay available.
- With the bizhub 250's Network Utility PageScope Web Connection, the device can be accessed to check its status and make the desired network settings using the standard web browser.
- The PageScope Workware document handling software makes document merging, converting, forwarding, and scanning child's play. Its file structure depicting miniature thumbnails of filed documents enables users to view files without opening the application.
- Accounts can be easily set up with the bizhub 250 and print volumes be defined by the administrator, making it an efficient cost-controlling tool.

Creative finishing

Practical and easy to operate: The bizhub 250 is designed to boost office workflow and save time. Paper and toner can be refilled on the fly, for example, and simply by installing one of the optional paper cabinets you can increase the standard paper supply of 1,150 sheets to a maximum of 3,650 sheets.

And with the bizhub 250, you can process a wide selection of paper formats – postcard size A6 up to A3 – as well as paper weights ranging from 50 g/m² up to 210 g/m², meeting all your business and representational needs. Business cards, covers, reports, offers or invoices – the bizhub 250 does them all and much more!

Enhance your creative potential and produce exactly the kind of documents, presentations and publications you want by taking advantage of the versatile finishing options the bizhub 250 offers. Whether you wish to sort/mailbin sort, staple in various positions, punch, or produce complete booklets, Konica Minolta's bizhub 250 gives you the choice.

Creativity was never so compact!
