Fast Fax Transmission

Handle any workload—whether it's one page or hundreds—with innovative faxing features that simplify management and expedite delivery.

- Send and receive faxes electronically with Internet faxing, using either a PC or conventional fax numbers via IP to save on transmission costs and paper.
- Preview pages prior to transmission to decrease errors and detect blank pages.
- Route inbound faxes to an e-mail address or network folder to ensure timely, accurate delivery and distribution.

Set output limits for individuals and groups with the Quota Setting feature to effectively control print costs.

Store up to 3,000 frequently-used documents in the Document Server for instant reprinting, refaxing and scanning.

Minimize access to sensitive documents. Locked Print allows users to delay printing until they enter a password at the device.

MP 2352/MP 2852/MP 3352
