

Xerox® Color C75 Press

Xerox® Color C75 Press

A Versatile Solution for a Stronger Business

Be ready for anything— especially success.

In an age when business is more challenging every day, versatility is an outstanding tool to have at your disposal. When you have it, you can be more proactive and less subject to the ups and downs of everyday business. You can expand your customer base because you can supply the type of jobs that are in demand—even as the types of jobs that customers are calling for change from one type to another.

Versatility is also an outstanding way to differentiate yourself in a crowded marketplace. The Xerox® Color C75 Press is big production power in a small footprint. It gives you the flexibility to produce the most demanding print jobs. It's simple enough to let you spend less time printing and more time at the other tasks of running your business.

And it brings you increased walk-up capabilities while you reduce costs at the same time.

If you want to do things in a new way—and do things that others can't, the Xerox® Color C75 Press is the business-ready solution you've been waiting for.

Answering Some Critical Questions

Are you seeking a way to do more in a more cost-effective way? Are you looking for a business-ready solution that is equally powerful and easy to use? Are you new to digital production printing? Or has it been an important part of your business and you simply need to expand the options that you can offer your customers?

Whatever your answer to those questions, your answer to a more efficient printing solution and a stronger business is the Xerox® Color C75 Press.

More—Options, Efficiency, Jobs, Opportunity

So why consider the Xerox® Color C75 Press? Because it offers you—and your customers—more. More of the types of jobs that are more in demand. More varied stocks that become the finished applications that deliver premium value. And more opportunity as you become the go-to partner for a wider variety of customers.

And in the case of the Xerox® Color C75 Press, less is also more. You get the ultimate digital solution at less cost and in a smaller footprint.

The Centerpiece of a More Flexible Solution

The Xerox® Color C75 Press is the center of a complete digital printing and workflow solution designed at every turn to make you more efficient and profitable. The C75 solution integrates everything you need to get started—and thrive—in the digital print marketplace.

Specialty media that expand your capabilities. Workflow solutions that streamline your processes. And Business Development Services that help you find opportunity and build a stronger business.

Easy to get started. Quick to master.

But this isn't a solution limited to a select few. One of its most powerful features is its ease of use so that everyone can get the most out of its tremendous capabilities.

Like everything in the Xerox® Color C75 Press, the user interface is designed for flexibility. Inexperienced users can scan, copy and print with ease. And digital veterans can turn up the power to produce the most complex jobs with outstanding productivity.

The Xerox® Color C75 Press delivers big versatility in a small footprint—balancing the power to build a stronger business with the ability to control costs.

Do more than ever before.

At the end of the day, if you can do things that you could never do before, your business is in a stronger position. The Xerox® Color C75 Press gives you the tools to produce the high-value jobs that used to be out of reach. New walk-up features—such as direct access to scanning and accounting and other integrated applications, including mobile printing—increase your capabilities as well as your efficiency.

Scanning and Copying that are Advanced, Easy and Flexible

Scanning and copying are becoming a critical part of your workflow. The Xerox® Color C75 Press is an ideal solution to make you—and your output—more versatile. The Xerox® C75 solution gives you a variety of scanning output options and locations including scan-to-file PDF, email, USB or a server—virtually anywhere with simplicity and security. Automated duplex scanning at a resolution of 600 x 600 dpi and copying up to 76 ppm and at 2400 x 2400 dpi delivers great color with ease, all at speeds up to a 200 ipm. It is a truly versatile scan solution that can even handle larger paper sizes up to 11" x 17" (A3), saving you the time and effort of multiple scans for a single oversized document or image.

Simplifying Business with Remote Services*

A suite of Remote Services makes it easier for us to do business together as we both work to make your business stronger. Remote Services integrates systems and tools, and couples them with highly skilled Xerox support teams to provide proactive problem resolution and a robust underlying knowledge of your needs. Remote Services:

- Transmit machine data to provide preventive maintenance, predict machine failure and reduce the time to fix problems.
- Monitor supplies and consumable (such as Dry Ink) levels and automatically replenish them, saving time and making sure you have what you need to keep printing.
- Automatically report billing meters, saving time and improving accuracy.

Control quality and save time with Simple Image Quality Adjustment (SIQA).

The jobs your customers demand require excellent alignment and registration. And the Xerox® Color C75 Press provides exceptional control over both with the Simple Image Quality Adjustment toolset.

But that power doesn't come at the cost of simplicity. SIQA gives you automated registration control, assuring that your customers' jobs meet the most exacting standards. And SIQA's SMILE correction process lets you adjust density uniformity, giving accurate color edge-to-edge, page-to-page.

Versatile Mobile Printing

With the Xerox® Color C75 Press, mobile printing is easier than ever with a host of mobile solution offerings.

These solutions enable you to easily print from your smartphone, tablet, laptop or desktop. It allows you to submit documents through email or other applications. Printing workflows are hassle-free, enabling you to print when and where you need. Xerox® Mobile Print solutions provide robust protection at every level, giving you the security level and control you require.

*Where available.

Differentiate yourself.

Xerox® Confident Color

In some measure, every Xerox® digital press incorporates Xerox® Confident Color—a collection of the finest color management technologies and services designed and refined to deliver more outstanding color and more saleable output. From consulting expertise to business development tools to custom solutions, Xerox® Confident Color can help you delight customers, produce more jobs, reduce your costs and grow your business.

Consistently Vibrant Images—Print After Print

The Xerox® Color C75 Press achieves advanced image quality that satisfies even the most discerning customers with an innovative set of options—all designed to produce outstanding, accurate, repeatable quality. It is recognized for outstanding color quality with Fogra certification as well as being licensed by PANTONE® for spot color matching to the PANTONE MATCHING SYSTEM®, PANTONE Goe™ and PANTONE PLUS.

Our Xerox® “low melt” EA (Emulsion Aggregation) Dry Ink technology also contributes to the customer-pleasing image quality. Chemically grown, its small, consistent particles produce great quality with less Dry Ink, for smooth transitions and an offset like finish.

Heavyweight and specialty stocks make winning combinations.

There's no doubt that heavyweight stocks make a big impression in applications ranging from business cards to brochures. With the Xerox® Color C75 Press, you get the same exceptional image quality across heavyweight and lighter weight stocks so you can be confident that prints look the way you want them. And when you combine heavyweight and specialty stocks, you can produce the high-value applications that weren't previously possible.

Specialty media is one of our specialties.

To take full advantage of the Xerox® Color C75 Press's exceptional media latitude, Xerox offers specialty media for a wide variety of custom applications such as tabs and labels, photo applications paper, DocuMagnets and more. And with Xerox® specialty media, you can bring new life to existing applications or expand your offerings.

Our 300 gsm auto duplex allows us to run reliably not only on heavy paper, but specialty substrates like Xerox® Premium Never Tear digital synthetics.

Adding creative, personalized content to heavyweight specialty stock gives you an unbeatable combination that creates the type of high-value applications that deliver the ROI your customers expect.

Features that Deliver Versatility, Efficiency and Quality

1 User Interface: The User Interface provides quick and easy access to Scan, Copy, Accounting and integrated applications such as Mobile Printing.

2 Oversized High-Capacity Feeder: For larger stocks, choose one or two robust production paper trays each holding 2,000 sheets of coated or uncoated media.

Reliable paper movement prevents misfeeds. This production-class feeder has four blowers, an advanced roller system and a center registration system (shown).

High-Capacity Feeder: Optional high-capacity feeder holds up to 2,000 sheets of paper (not shown).

3 Load-While-Run Dry Ink: Provides longer print runs and enhanced productivity. Two black Dry Ink SMart Kit® replaceable units keep replenishment intervention to a minimum and productivity to a maximum. SMart Kit replaceable units for Dry Ink, drum rolls, fuser and waste Dry Ink bottle raise uptime to all-time highs.

4 Front to Back Registration: Contact Image Sensor provides adjustments to deliver ± 1 mm front to back registration.

5 Image Quality: 2400 x 2400 dpi resolution. The self-cleaning Corotron assembly offers improved productivity and image quality. Our Xerox® “low melt” EA (Emulsion Aggregation) Dry Ink technology is chemically grown and its small, consistent particles produce great quality with less Dry Ink.

6 Paper Path: Straight, simple paper path increases reliability.

7 Three Standard Paper Trays: Along with the bypass tray, holds 1,900 sheets of paper.

A surprising host of options and unsurpassed versatility at an equally surprising price point.

Take a closer look inside and out, and you'll see how the Xerox® Color C75 Press is built to give you reliable performance, exceptional media handling and customer-pleasing quality start to finish.

8 Scanner: The document handler holds 8.5" x 11" (A4) to 11" x 17" (A3) originals. Automated duplex scanning at a resolution of 600 x 600 dpi at up to 200 ipm and copying at 2400 x 2400 dpi at speeds up to 76 ppm through the Duplex Automatic Document Feeder.

9 Smart Decurler Module: You get outstanding productivity in your finishing equipment because this robust post-fuser decurler with two rollers and bars ensures that sheets are flat. The "smart" decurler built into the paper path takes into consideration the side, the Dry Ink coverage and the humidity and applies the most appropriate pressure to ensure the flattest output.

10 Intelligent Fuser: Assign a dedicated sheet size to the fuser. The press intelligently detects job and fuser setting mismatches, minimizing waste and saving time.

11 Optional Finishers: Produce more revenue-generating applications, including coated paper, inline with a suite of optional finishers: Offset Catch Tray, Advanced Finisher, Professional Finisher, Standard Finisher with optional folder, Standard Booklet Maker Finisher with optional folder, SquareFold® Trim Module, GBC® AdvancedPunch and High-Capacity Stacker.

12 SquareFold® Trimmer Module: Attach the Standard Booklet Finisher for greater versatility and enhanced output. This optional module enables face trimming and square folding for higher quality booklets and brochures.

Versatility From Start To Finish

Flexibility is all about options. The Xerox® Color C75 Press gives you all the choices you need to make anything—from coated brochures, to newsletters, presentations, direct mail and professionally finished booklets.

Feeders

- 1 High-Capacity Feeder:** Holds up to 2,000 sheets in a wide range of weights.
- 2 Oversized High-Capacity Feeder:** Adds capacity as well as up to two additional media selection points for large and heavyweight media and high-value applications.

Stackers

- 3 Offset Catch Tray:** 500 sheet stacking.
- 4 High Capacity Stacker*:** 5,000 sheet stacking for long production runs.
* Interface module required.

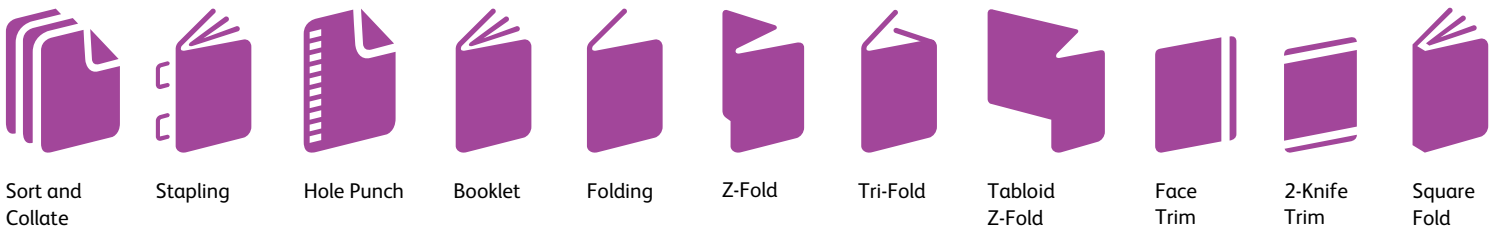

As your customers' needs expand, the Xerox® Color C75 Press can grow too, with configurations that add application flexibility and enhanced productivity to help you achieve your objectives.

Options that Automatically Finish Every Job with Satisfied Customers

Finishers

- 5 Advanced Finisher:** Ideal for basic binders, manuals, reports and presentations. This finishing option offers 50 sheet, multi-position stapling and 2, 3 or 4 hole punching.
- 6 Professional Finisher:** The choice for uncoated, high-page-count booklets, manuals, etc. In addition to the features of the Advanced Finisher, this finisher includes saddle stitching with center fold for easy booklet making for up to a 60-page booklet and bi-fold brochure assembly.
- 7 GBC® AdvancedPunch*:** Lets you create professionally bound documents in-house by combining printing, punching and collating into -one convenient step.
- 8 Standard Finisher and Booklet Maker Finisher*:** This finishing module enables coated booklets, brochures and bi-fold mailers as well as stacking, stapling and hole punching. It also includes an interposer input tray. Even more versatility can be obtained with the addition of the optional tri-fold, z-fold and tabloid z-fold module for this finisher.
- 9 Xerox® SquareFold® Trimmer Module:** Enhances the power of the Standard Finisher and Booklet Maker with the ability to adjust face trimming and produce a squared spine on a booklet for a perfect bound-like appearance.
- 10 The Xerox® 2-Knife Trimmer Module:** Provides a head and foot trim designed to work in combination with the Xerox® SquareFold® Trimmer Module. This inline solution produces professional-looking full-bleed booklets by trimming all three sides.

Adding the perfect finish to any creative idea is easy with a wide variety of options.

Print Servers that Produce More Work with an Easier Workflow

We offer a choice of print servers, so you're sure to find one that fits your workflow. Each available print server puts a variety of color tools, workflow capabilities, processing speeds and sophisticated color management controls at your fingertips.

Color Workflow Software

Each server is designed to meet a specific set of workflow and application requirements. Your Xerox representative will help you choose the one that best suits your needs.

Xerox® FreeFlow® Print Server

Xerox® EX Print Server,

Transparency handling

After

Before

Spot color callouts

After

The Adobe PDF Print Engine—or APPE—is the gold standard in PDF processing, producing PDF files that flow through your shop with a minimum of intervention. No more transparency problems. No more color matching challenges. Instead, you will see faster turnarounds, more accurate results—and more returning customers.

Business-ready Solutions that Answer Your Needs

Through years of partnership with businesses like yours, we've heard your needs. That you need to simplify the way you manage your printers. That you need to control access and costs. And that you need to simplify the way you get tasks and jobs done.

We also offer the FreeFlow® Digital Workflow Collection and other partner solutions that deliver workflow productivity, innovation and automation, as well as variable data solutions designed to grow your business—and your customers’.

We answer them with the Xerox® Color C75 Press and solutions from a range of industry leading partners. Together, they form a completely integrated solution that sets you apart and lets you excel in new ways. Here are just a few:

Xerox® Standard Accounting

Xerox® Standard Accounting (XSA) software is a standard feature that resides locally on the device. It provides superior accounting features that lets you track, analyze and limit device usage by service such as Copy, Scan and Print. It lets you know where your costs are coming from so you can take control of them.

Xerox Secure Access Unified ID System®

Secure Access integrates with your existing employee ID badge solution, allowing users to unlock access to system features via badge proximity or swiping. Data can then be made available for tracking, accounting and regulatory purposes. Equitrac® Follow-You® print allows you to send a document to a secure print queue and use your ID card to access the document for printing on any network printer equipped with Secure Access.

Outstanding Color Performance

The Xerox® Color C75 Press is the one to count on for the most creative customers. Recognized for outstanding color quality with Fogra certification as well as licensed by PANTONE® for spot color matching to the PANTONE MATCHING SYSTEM® and PANTONE PLUS. That assurance is especially important to your customers who use spot colors for brand identification or to visually connect a series of materials, such as collateral, direct mail and business cards. With the Xerox® Color C75 Press, you'll deliver outstanding results every time.

Xerox® Color C75 Press Specifications

Resolution

- Print/Copy: 2400 x 2400 dpi
Scan: 200 x 200, 300 x 300, 400 x 400, 600 x 600
- Line Screens: 600, 300, 200, 150 Dot*, 200 Line Screen*, Stochastic Screen*

Technology

- Load-while-run capability
- Advanced Registration Technology for tighter control
- Custom paper registration profiles
- Simplified Image Quality Adjustment (SIQA) Toolset
- Xerox® EA low melt Dry Ink
- SMart Kit® replaceable units for Dry Inks, drums, fuser, waste bottle, staples
- Active decurling for heavyweight media

Selected Color/Graphic Arts Credentials

- Fogra certification, PANTONE MATCHING SYSTEM®, PANTONE Goe™, PANTONE PLUS, Adobe® PDF Print Engine*

Integrated Scanner

- Color scanner
- Single pass duplex scanning
- Scan to a variety of output options
- 250 sheet capacity
- Up to 200 ipm (Color and Black and White)
- Originals up to 11" x 17" (A3) in weights from 38 gsm (16 lb bond) to 200 gsm (53 lb bond)
- Duplex Automatic Document Feeder (DADF)

Productivity/Print Speeds

- Duty Cycle: 300,000
- A4/8.5" x 11"
 - A4/76 ppm 8.5" x 11"/75 ppm (64 – 176 gsm uncoated)
 - 51 ppm (177 – 256 gsm uncoated) (106 – 176 gsm coated)
 - 35 ppm (257 – 300 gsm uncoated) (177 – 300 gsm coated)
- A3/11" x 17"
 - 39 ppm (64 – 176 gsm uncoated)
 - 25 ppm (177 – 256 gsm uncoated) (106 – 176 gsm coated)
 - 17 ppm (257 – 300 gsm uncoated) (177 – 300 gsm coated)
- SRA3/12" x 18"
 - 35 ppm (64 – 176 gsm uncoated)
 - 22 ppm (177 – 256 gsm uncoated) (106 – 176 gsm coated)
 - 15 ppm (257 – 300 gsm uncoated) (177 – 300 gsm coated)

Paper Flexibility/Weights

- Internal Trays 1-3: 550 sheet each, 18 lb bond to 80 lb cover (64 – 220 gsm) uncoated; 28 lb bond to 80 lb cover (106 – 220 gsm) coated
- Bypass Tray: 250 sheets, 18 lb bond – 110 lb cover (64 – 300 gsm) uncoated; 28 lb bond – 110 lb cover (106 – 300 gsm) coated
- Coated, heavyweight, transparencies, DocuMagnet, labels, tabs; all trays run coated stock

Paper Format/Sizes

- Maximum sheet size all trays: 13" x 19.2"/SRA3/330 x 488 mm
- Maximum print image area: 12.72" x 18.9"/323 x 480 mm
- Maximum copy image area: 11.6" x 16.8"/297 x 432 mm
- Minimum paper size trays 1-3: 5.5" x 7.2"/140 x 182 mm
- Minimum paper size bypass: 4" x 5.6"/100 x 148 mm
- Minimum paper size OHCF: 7.2" x 10"/B5/176 x 250 mm

Paper Capacity and Handling

- 1,900 sheets up to 13" x 19.2"/SRA3 standard via three internal trays and bypass tray
- Maximum paper capacity: 5,900 sheets 13" x 19.2" SRA3 via standard trays and two Oversized High Capacity Feeders (optional)
- 300 gsm/ 110 lb coated and uncoated automatic duplex (Oversized High Capacity Feeder recommended)

Options

- High Capacity Feeder
 - 8.5" x 11"/A4
 - 2,000 sheets up to 80 lb cover/220 gsm
- Oversized High Capacity Feeder
 - 18 lb bond – 110 lb cover (64 – 300 gsm) uncoated
 - 28 lb bond – 110 lb cover (106 – 300 gsm) coated
 - 7.25" x 10.5"/184 x 267 mm/B5 to 13" x 19.2"/SRA3/330 x 488 mm
 - One or two Tray Module: 2,000 sheets or 4,000 sheets
 - Small media support included 2-OHCF
- Offset Catch Tray
 - 500 sheet stacking
- Advanced Finisher
 - 500 sheet top tray
 - 3,000 sheet stacker tray
 - Multi-position stapling, coated and uncoated paper, up to 50 sheets
 - Hole punching
- Professional Finisher
 - 500 sheet top tray, 1,500 sheet stacker tray
 - Stapling, coated and uncoated, up to 50 sheets, hole punching
 - Bi-fold, saddle stitch booklet maker up to 15 uncoated sheets, 7 sheets at 106 – 176 gsm coated, 5 sheets at 177 – 220 gsm coated
- GBC® AdvancedPunch
 - Punch configurations available in A4 and 8.5" x 11"
- Standard Finisher
 - 500 sheet top tray, 3,000 sheet stacker tray
 - Multi-position hole punching and stapling
 - Stapling, coated and uncoated, up to 100 sheets
 - 200 sheet interposer for pre-printed and full bleed sheets
 - Optional Folding Module for tri-fold and Z-fold

- Booklet Maker Finisher
 - All features of standard finisher
 - Coated/uncoated booklet bi-fold or saddle-stitched booklets
 - Up to 25 sheet (100 page booklet)
 - Optional Folding Module for tri-fold and Z-fold
 - Optional Folding Module for C-fold and Z-fold
- SquareFold® Trimmer Module
 - Square fold up to 25 sheets
 - Face trim between 2 – 20 mm in 0.1 mm increments
 - Paper weights 18 lb bond to 110 lb cover (64 – 300 gsm) coated and uncoated
- High Capacity Stacker
 - 500 sheet top tray
 - 4" x 5.6"/102 x 142 mm to 13" x 19.2"/SRA3
 - 5,000 sheet main tray
 - 7.2" x 10.5"/182 x 257 mm to 13" x 19.2"/SRA3
- Convenience Stapler
 - Staple up to 50 sheets of 90 gsm/24 lb media
- Foreign Interface Kit
 - The Foreign Interface Kit enables the connection of external devices such as auditrons or coin-op devices. This will perform in copy and print modes.

Standard

- Xerox® Standard Accounting (XSA), Scan to Email, Data Security Kit

Other Options

- Network Accounting Kit, USB, Common Access Card
- Mobile/Tablet/Smartphone print

Choice of Print Servers

- Xerox® FreeFlow® Print Server
- Xerox® EX Print Server, Powered by Fiery®
- Xerox® Integrated Fiery® Color Server

Electrical

- Printer: 200 – 240 VAC/50/60 Hz
- Options: 100 – 240 VAC 50/60 Hz

Printer Dimensions

- Height: 54"/1,372 mm
- Width: 68"/1,714 mm
- Depth: 31"/777 mm
